**NEWS FOR IMMEDIATE RELEASE**

**Trident Technology Solutions To Move HQ to North Raleigh**

***Company Set to Relocate its Headquarters to Meet the Increasing Demand from Fortune 1000 Companies for State-of-the-Art Business Communications Solutions***

RALEIGH/DURHAM, NC — Sept 18, 2009— Trident Technology Solutions, an industry leader in business communications and IT services, announced today that the company has relocated its Headquarters to Sumner Business Park in North Raleigh. The company's relocation is being driven by the every growing demand from Fortune 1000 companies for their state-of-the-art business communications solutions. Trident's new address is 2700 Sumner Blvd, Suite 106, Raleigh, NC 27616.

"The Sumner Blvd location gives us a much needed increase in square footage" said Tad Kuvik, vice president of operations for Trident Technology Solutions. "Our new location is 6000sq ft providing more office space and a large warehouse. This combines our two local branches (Raleigh & Durham) into on large facility. We are very excited about our new home in North Raleigh."

Founded in 2004, Trident Technology Solutions is the nation's leader in full service business communication and IT services. Trident's mission is to offer quality products and services, while supporting them with award winning care. Their unique value and company differentiator comes from their team of highly skilled and certified professionals who are empowered to exceed expectations. The team's objective is to identify technological

challenges in context with their customers' business objectives enabling them to align technology based needs with organizational goals.

“This move will allow Trident to combine all divisions and personnel (administration, sales, structured cabling, communications and technology) in one centrally located office.” added Mr. Kuvik. “Having everyone in one place will increase efficiency and in end benefit our clients.”
